

We have a professional geological engineer and drilling experienced team assist you to select the most suitable bits for the formation of your actual geological strata
Speed your drilling , Consume yours less

Company introduction

公司简介

湖南锋速钻探装备有限公司，原为祁东锋速钻探工具有限公司，以研发生产销售钻探装备，钻头等产品专业厂家。

公司坚持以人为本，科技创新，质量至上，通过引进国内外先进技术，研究开发出一系列钻探装备和工具。主要产品有：复合片无芯钻头、复合片取芯钻头、电镀金刚石钻头、合金钻头、各类扩孔器、钻杆和岩芯管等18类上百款的产品，多款产品已荣获实用新型专利。

我们以其卓越的品质、优惠的价格、完善的售后服务取得了广大消费者的信赖，并将继续不断创新，为广大海内外客户提供更方便的服务。

Speedmade Drilling Equipment Co.,Ltd. formerly qidong fengsu drilling tools CO.LTD.that research and production sales drilling equipment、drilling bits professional manufacture.

The company insist on People-oriented, Technologically innovative,Quality firstly, Through the introduction of advanced technology which researched and development of a series drilling equipment and tools.main products includes Composite core drill bits、Composite coreless drill bits、Electroplated diamond drill bits、Impregnated diamond core bits、DTH hammer bits、Roller cone bits、HDD hole openers、Reaming shell、Drill pipe and Drill rig with 18 categories and hundreds of products.Many products have won the utility model patent.

We with its excellent quality, preferential price and after-sales service has won the trust of the majority of customers ,We will be continue innovation to provide more convenient services for customers.

Corporate honors 公司荣誉

Win-win Cooperation 合作共赢

PDC Cutter Size 常规切割尺寸

产品编号 Product Number	直径 Diameter (D)(MM)	高度 Height (T)(mm)	金刚石复合层 Diamond composite layer	弧高 Arc height	硬质合金倒角 Carbide Chamfer
1004	10±0.05	4.20±0.10mm	1.8~2.0mm	/	0.3mm × 45°
1304P	13.30±0.05	4.20±0.10mm		/	
1304H		4.80±0.10mm		1.5~1.8mm	
1304PQ		4.20±0.10mm		/	
1305		5.20±0.10mm			
1306		6.10±0.10mm			
1308P		8.10±0.10mm		/	
1308H		8.30±0.10mm		1.5~1.8mm	
1313		13.20±0.10mm		/	
1313Q		14.00±0.10mm		/	
1308PQ		8.10±0.10mm		/	
1308HQ		8.80±0.10mm		1.5~1.8mm	

备注：我们可以根据每个客户的图纸/样板/要求生产和设计
 Note: We also can produce and design as per clients' drawings/samples/requirements

APPLICATION 应用领域

【PDC CHIP】

According to formations
Select the chip from the
prominent suppliers

【U SIAG DISCHARGE】

Increase cutting speed

【WELDING TECHNOLOGY】

100% filling to prevent
separation delamination

【BODY STRUCTURE】

45# steel as material
reasonable water
channel and cutting angle

【HIGH QUALITY BAR】

YG8 alloy with property of wear
resistance and good diameter
durability

【THREAD】

Connect core tube/drill pipe
Thread can be made as required

【PDC CHIP】

According to formations
Select the chip from the
prominent suppliers

【WELDING TECHNOLOGY】

100% filling to prevent
separation delamination

【BODY STRUCTURE】

45# steel as material
reasonable water
channel and cutting angle

【HIGH QUALITY BAR】

YG8 alloy with property of wear
resistance and good diameter
durability

【BIG AIR HOLES】

Wash away the gravel
high-speed drilling

【BIG AIR HOLES】 According to different geology, Production of corresponding drill bits

**FACTORY DIRECT
QUALITY ASSURANCE**

PDC Core bit 金刚石复合片钻头

直径 Diameter (mm)	钻压 Pressure(kg)	转速 Speed(rpm)	耐冲击性 Impactres istance	钻孔层 Drilling layer		
				Normal	Medium	Extremely
